Tasks

Task 1: **Batch Formation**: Based on your background & environment, select a group for teaching the RQ. The group can be children or adults. (at least 5 people in a batch)

Task 2: **Online or Offline Teaching**: Based on the audience, you decide which mode is best suited. If the group is teenagers, online could be more suitable, or the elder's traditional way of teaching is the best.

Task 3: **Make a weekly schedule**. This depends upon the availability of the students. The optimal would be 3 live meetings per week. The duration of the course could be 3-4 months.

Task 4: **Start the Classes**: Ask the students to watch the videos before coming to the class. During the class, you will interact with students and clear the questions if any.
