

## Tajweed Tip # 6

- ✓ Go to [tanzil.net](http://tanzil.net) (or download similar app) and repeat the verse for 5 to 10 times (while reciting it with the Qari) until you get it right, especially for Surah Al-Fatihah which you are reciting almost 25 times everyday. Correct this Surah first!
- ✓ Select a Qari that you like, whose voice is close to your voice, and whose style you can imitate easily.

or any other site.

The screenshot shows the website interface for selecting and reciting a verse. On the left, there is a 'Browse' section with dropdown menus for 'Aya: 1', 'Juz: Juz 1', and 'Page: 1'. Below this is a 'Recitation' section with a dropdown menu for 'Al-Husary' and a volume control slider. On the right, there is a decorative frame containing the text of Surah Al-Fatihah in Arabic, with the first verse highlighted in green. The text is:
